

We deliver excellent user experiences
and effective brand strategies

“Connect with your
target audience and be
meaningful to them.”

DesignStamp is a design collective located in Vancouver BC and was born in 2001. We offer services across a wide range of media, to ensure clarity and consistency of your message. We balance beauty and usability to build brands that can thrive in an ever-changing environment by having strong relationships with their customers.

Our name personifies a commitment to using the power of design to create distinction. Thoughtful design not only makes things look good, but can provide businesses with a competitive edge in today's crowded marketplace.

Our Clients

We work with companies of all shapes and sizes. Big and small. We have worked with companies such as the Marriott Hotel, Radisson Hotel, QDesign, Apple, Universal Music, eDigital, MDS Capital, Rouxbe, Belo, Ventures West Capital, Canaccord Capital and IP Applications. Our experienced designers have worked with clients such as Nike, Nintendo, Hurley International, Canada Tourism, Telus and Capitol Records to name a few.

Our Guiding Principle: Respect

We respect our client.

We like to learn from those who know best. And no one knows your business better than you. We will take the time to

- » Point of Presence signage

We offer personalized web-hosting to select clients.

understand your business needs and also learn about your target audience goals. Our work has to matter to your target audience to meet your business objectives.

We respect our product.

To create something and put it 'out there' means that we should never compromise on the quality, content and integrity of the product. No cookie cutter solutions here. We make work that meets the unique requirements of each project.

We respect ourselves.

We deserve to be treated with the same respect that we afford our clients and partners. We will not under-sell or cheapen our craft by our practices. We are an active part of the design community and make time to give back and contribute to the local and global design community.

Why You Should Work With Us

We are passionate.

We are love design. We live, breathe and are energized by good design. The design of a building, design of a piece of furniture or the design of a really good toothbrush. It all relates and informs everything that we do. We understand the relevance of designing for the target audience and meeting their needs. That, after all, is what good design is all about.

We communicate.

No techno babble here. We communicate in the language of our client. And we take the time to understand your business and all our meetings are centered around making sure that your message is heard. Not how many fancy acronyms our programmers can code in.

We are flexible.

Our skill set, our proficiencies match the project that we are working on. What that means is that you pay only for the people and the skills that is valuable to your project. No more and no less. No extra overhead means a leaner, more efficient and purposeful team.

We care.

We will not work with clients whose ethics and philosophies are not in line with ours. We want to do honest work that we can all stand behind with pride.

People love us.

Our clients are loyal to us and not only do they come back for more but also refer new clients to us. We make every effort to ensure that the production process is smooth, and even pleasurable for all involved!
